

N95 Respirator Fit Tester Training (EM 122)

THE NEED

The OSHA Respirator Standard 1910.134(k) and the armed forces training requirements (USACHPPM, NHRC, AFRL) mandate that employees who wear N95 respirators, undergo at a minimum, annual fit testing. **N95 Respirator Fit Tester Training (EM 122)** is designed for civilian and military health care professionals who perform fit tests to validate the effectiveness of the seal on the N95 respirator, which is used when treating patients with infectious airborne diseases, including pandemic influenza.

TARGET AUDIENCE

- ▼ Recommended for civilian and military health care trainers who need to perform a fit test for health care workers who must wear the N95 respirator
- ▼ Introductory-level

MODALITY

- ▼ Online just-in-time training
- ▼ CD-ROM

EM 122 TOPICS INCLUDE:

- ▼ Identify the need to conduct the N95 respirator fit test
- ▼ Discuss the use of the medical questionnaire prior to N95 respirator fit test
- ▼ Describe the process for conducting a qualitative fit test for N95 respirator use
- ▼ Conduct a fit test for N95 respirator use
- ▼ Perform proper inspection and disposal of respirators

The Yale New Haven Center for Emergency Preparedness and Disaster Response
can assist your organization in preparedness planning and response.
